

OPTIMIZING

DaaS

FOR MY BUSINESS

WHAT IS DESKTOP AS A SERVICE?

A practical and reliable virtual desktop platform to utilize

Cloud computing solution in which VDI is outsourced to a third-party provider

Provides leverage to access data anywhere, anytime and on any device

No dependency on location as data is accessible on the go

Different users can work on the same file without any conflict of data

BENEFITS OF DaaS

Cost Saving

Save a vast amount in operations and annual capital expenditure

100% Secure

Protect your work from any threats

Data Safety

Data is centralized and secured at rest, in transit and use

24x7 IT Assistance

24x7 available support team for regular or emergency services

EXAMPLES OF INDUSTRY USES FOR DaaS

Healthcare

- ▶ Enables clinicians to use technology at the point of care to quickly access centralized data, improving patient care
- ▶ Enhance security by keeping patients' sensitive data centralized instead of distributed on different devices.

Education

- ▶ Beneficial for both educators and students
- ▶ Students can quickly access the application they need
- ▶ A cost-effective operation saving money of both educational institutions and students

Manufacturing Industry

- ▶ Secure and centralized data which can be accessed across departments and locations
- ▶ Secure approach to store confidential data
- ▶ A cost-effective solution
